New World Guangzhou Hotel and Tongpai Hotel Open Successively, Empowering GBA Development

On 8 Dec, Guangzhou New World Hotel, which is located in the heart of Baiyun New Town in Guangzhou and an essential supporting facility of the Lingnan New World project, celebrated its grand opening. This marks the first entry of New World Hotels & Resorts into Guangzhou. Prior to this, Tongpai Hotel, situated in the New World Canton Centre complex in Zengcheng District, Guangzhou, also officially opened for business. The successive openings of these two hotels in Guangzhou have become the highlight event for the New World ecosystem's hotel business sector by the end of 2023. As the headquarters of NWCL, Guangzhou is the core market for NWD's strategically important businesses and gathers the most diverse businesses of NWD. The opening of two hotels demonstrates NWD's commitment to introducing high-quality resources to the GBA, as well as their confidence and determination in deepening their presence and prospects in the region's future.

Two Buildings of Shenyang Park Ville Delivered Nearly Eight Months Ahead of Schedule

Buildings No. 9 and No. 10 of Shenyang Park Ville were delivered on 30 Oct, nearly eight months ahead of the delivery time stated in the purchase contract. Much to the surprise of the homebuyers, they can also process certificate of ownership at the time of delivery. NWCL in Shenyang has always rewarded owners' long-term recognition and industry reputation with its strong delivery capabilities. The requirement of "certificate upon delivery" places higher demands on developers, requiring them to strictly fulfil their main responsibilities in the registration and certification of newly built commercial properties. The implementation of the "certificate upon delivery" also demonstrates NWCL's confidence and determination in its construction quality. Currently, all the buildings in the project are completed and recorded as ready-for-occupancy.
